

TIE
CHAIR™

Instructions for use:

Simply slide the Tie Chair™ over the back of a chair, and tie the top two ties in the back so the Tie Chair™ is secure.

Next, place the child on the seat, and lift the harness between the legs, up to the top of the chest, directly under the arms.

Finally, wrap the straps around the back in a criss-cross, then around to the front, tying them snugly. (Straps can be wrapped around again for extra security if your child is old enough to untie the straps)

Your child is now safely secured in the chair.

As with any toddler seat, never leave your child unattended*†.

** Secure ties tightly to minimize the risk of falling.*

†All products with straps pose a strangulation hazard to children.
